

WELLNESS PROGRAM A **GREEN** EMPLOYEE BENEFIT

Do you want to enhance your brand, create a happier workforce, promote health and wellness, and benefit the environment?

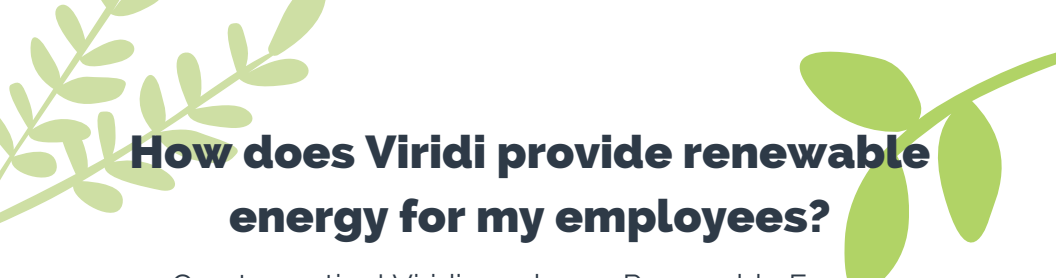

Of course you do! Who doesn't?

We all know how detrimental climate change is to the natural world, but did you know it has a huge impact on our mental and physical health?

Through the Viridi Wellness Program, **offered in partnership with NOACC**, you can allocate renewable energy certificates to your employees to help reduce their carbon footprint and offset their electricity use at home.

How does Viridi provide renewable energy for my employees?

Great question! Viridi purchases Renewable Energy Certificates (RECs) on your behalf and allocates them to your employees so they can "go green". A REC represents energy produced by a renewable resource like wind, solar, or hydro.

When 1,000 kWh of power is generated by a renewable resource, 1 REC is created, and that REC represents and tracks the renewable energy once it enters the electricity grid. Coincidentally, the average household in the U.S. uses a little under 1,000 kWh of electricity per month. Therefore...

By purchasing 1 REC per month for each of your employees, you are effectively "greening up" some, if not all, of their home electricity use!

GET STARTED

1. Go to **viridi.eco/product/employee-benefit**
2. Select how many employees you'd like to enroll, select your payment timing, enter your payment information, & submit.
3. You will receive an order confirmation email & request for a list of participating employee names & email addresses.
4. We will then send you a welcome packet containing your company's RECs and helpful tools to promote your commitment to sustainability.
5. Viridi will then allocate those RECs to your employees using the emails you provided.

AS A BONUS, FOR EVERY REC PURCHASED, VIRIDI WILL ALSO PLANT ONE TREE THROUGH OUR AMAZING PARTNER TREES FOR THE FUTURE
